

Lebanon International Solar Week 2024

Your gateway to a market expected to surpass the 1 Billion USD in the coming years

16,17,18 May

Seaside Arena - Beirut Waterfront
Lebanon

Supported By:

2nd
edition

Visitor Profile

- Industry Professionals including solar project developers, engineers, manufacturers, installers, contractors, and consultants.
- Government Representatives government agencies, ministries, and regulatory bodies.
- Investors and Financiers, Business Leaders, Trade Buyers, venture capitalists, private equity firms, banks, and institutional investors,
- Researchers and Academics: Professionals from research institutions, universities, and educational organizations
- Policy Advocates and Non-Governmental Organizations (NGOs): environmental advocacy groups
- Students and Educators: Students pursuing studies in renewable energy, engineering, environmental sciences, and related fields
- General Public
- Chambers Of Industry & Commerce, Agricultural Companies
- Real Estate & Property Developers /Owners
- Media & Press

WHY VISIT

The event will present a unique & specialized platform to bring together national authorities, industry executives & experts from Lebanon, Mediterranean & other countries to share information and insights related to the solar & renewable energy & sustainable growth. Industries will have the opportunity to gain invaluable insights of the renewable energy via presentations, workshops and exhibitions & connect with various stakeholders & decision-makers.

Solar energy is a High valuable resource in Lebanon.
With around 3000 hours of sunshine, the addition of this energy source to the national grid could greatly contribute to the growth of clean energy in Lebanon

FACTS

- **Lebanon has adopted an ambitious target** to cover 30% of its energy consumption from renewables by 2030.
- **A proud moment in the history of sustainable development in Lebanon.** The Ministry of Energy and Water has signed today 11 solar PPA's with private sector companies to build a total of 165 MW in Lebanon (May 2023)
- **A national path initiated back in 2010, Lebanon has exceeded 1,000 MW of solar installations by June 2023 (LCEC General Director)**
- **Solar is the Most Abundant Energy Source on Earth, An hour & half's worth of solar energy** that reaches to the surface of the planet has enough power to meet all of **humanity's energy consumption for an entire year.**
- **Solar is the Fastest and Most Popular Form** of New Electricity Generation.
- **Solar Will Become 35% Cheaper By 2024**

WHY “Lebanon International Solar Week”

Facing a severe energy crunch, Lebanese are increasingly turning to the sun to meet their electricity needs.

LISW is the perfect platform to display the latest Technological advancements and discuss the latest Trends related to solar power & renewable energy. In addition to building a sustainable environment, providing an ideal opportunity for local & international organizations to share and showcase their products and services, along with offering a forum to share best practices and experiences with exhibitors from around the world.

Why Exhibit

- Offering a forum to share best practices and experiences with exhibitors from around the world
- Position your brand as a key player in the fast-developing solar energy industry sectors & renewable energy
- Expose your brand to a highly targeted audience and meet senior-level decision makers
- Widen your business opportunities in other renewable energy and power generation
- Promote your business by presenting your latest technologies
- Share best practices and expertise with national and multinational exhibitors
- Benefit from sponsorship packages for media and marketing
- Opportunity to network with government decisionmakers, business leaders, investors, and country delegations from around the world
- An ideal place to meet members of various internationally acclaimed organizations
- Unrivalled access to promote your products and services to key environmental professionals, and energy experts
- Opportunity to renew and reaffirm contacts within a large conference and exhibition environment
- Build on opportunities in Lebanon & surrounding countries
- Opportunity to share expertise in specialized seminars
- Get exclusive benefits when participating as sponsors or exhibitors

Exhibitor Profile

- Solar systems
- Panels
- Collectors
- Biomass
- Chargers
- Wind generators
- Transformers
- Biofuel burners
- Geothermic Systems
- Heat Exchangers & Pumps
- Pipes, accessories, spare parts, tools
- Automations
- Commerce & sectoral services
- Active Solar Systems
- Energy saving
- Solar heaters, classical, tile-roofs, low height
- Autonomous, Hybrid, Interconnected systems
- Electric / Hybrid vehicles
- Passive Solar Systems
- Photovoltaic systems
- Aluminum energy structures
- Commerce & Domain Services
- Water purification & treatment solar-powered

A QUICK PREVIEW ABOUT THE LISW 2023

Held under the Patronage of the President of the Council of Ministers His Excellency Mr. Najib Mikati, and inaugurated by his excellency George Boujikian Minister of Industry The LISW 2023 Expo & Conference, took place on 1, 2 & 3 June at the Hilton Beirut Habtoor Grand Hotel. The exhibition was an incredible success attracting a total of 3,643 visitors and hosting 48 exhibitors under one roof. Running in parallel, the panel discussions covered various topics related to our actual market & application, daily necessities & requirements such as:

- On-Grid and Hybrid Solutions in C&I Application, Economic Feasibility of solar power
- Optimized PV Applications for the Lebanese Market
- The Importance of Solar PV Safety
- The Full-Screen PV Module

The LISW 23 Key note speakers & Panelists:

Joseph El Assad

Georges Abboud

Pierre El Khoury

Ramzi AbouSaid

Rabih Osta

Youssef Ghantous

Joumana Hosri

Naji Sultanem

Sinu Ponnacham

Alkiviadis Metzalis

Angela Kheireddine

Karim Hamade

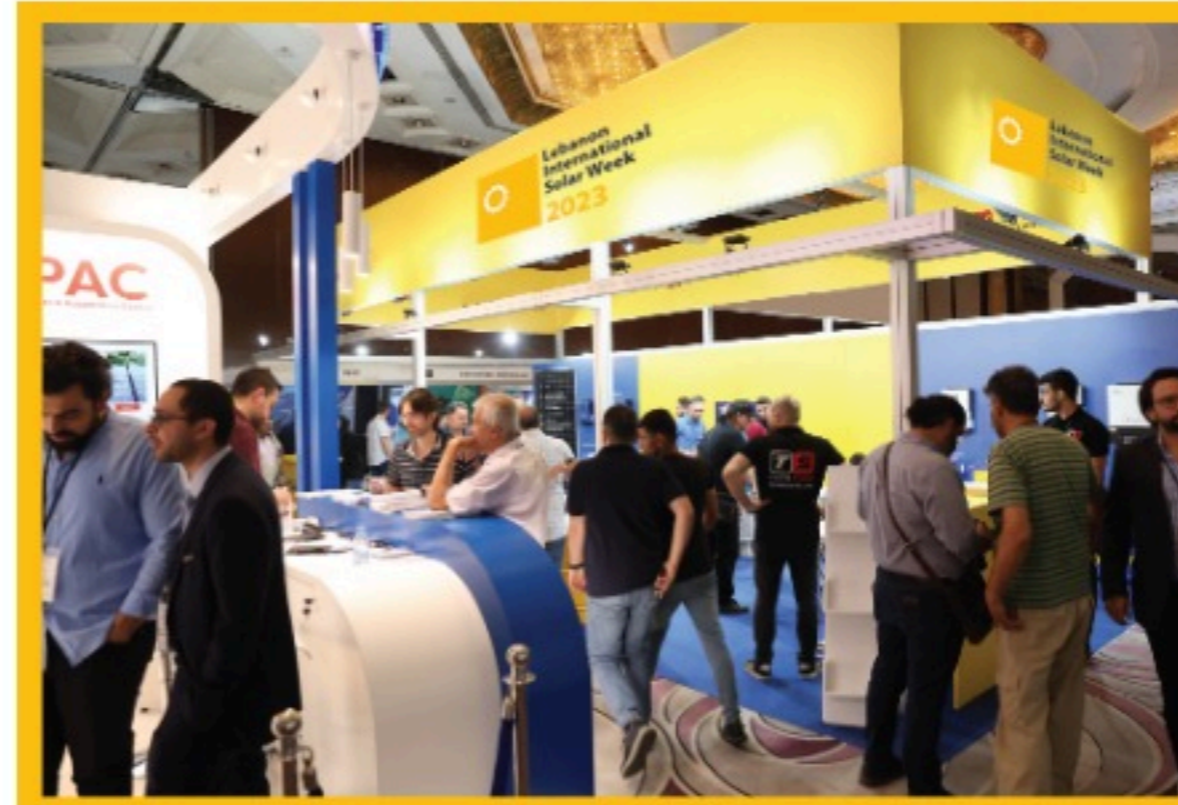

Roger Achkar

Hicham Majdalany

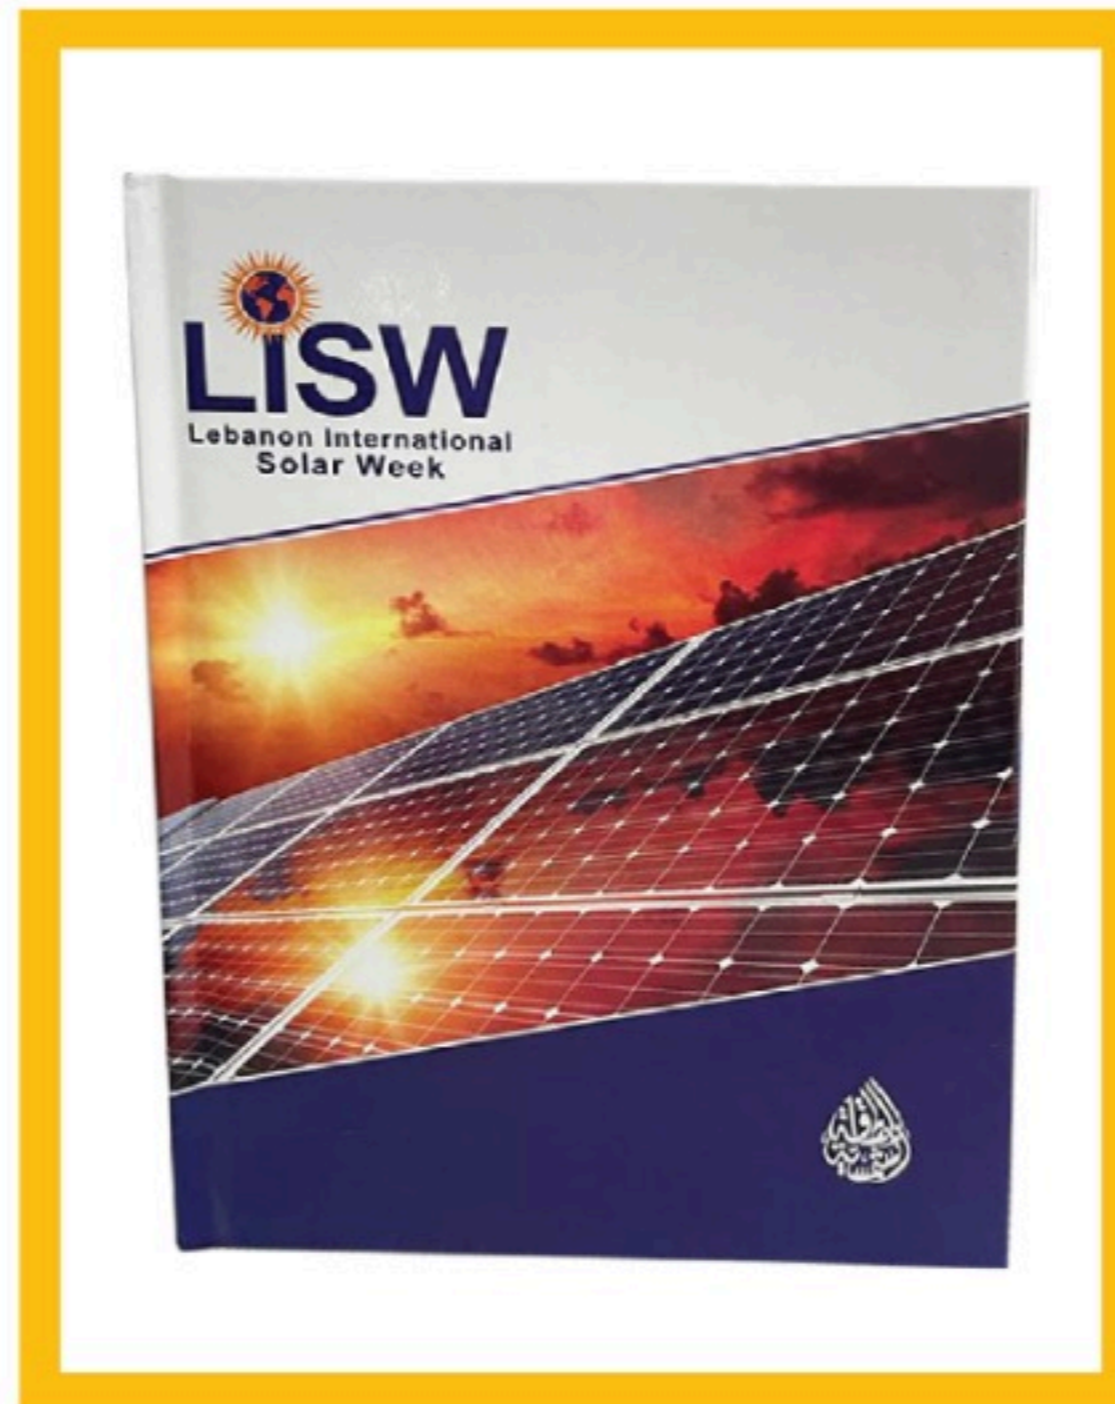

Karim Ghaddar
